Ramblings of the President

By Glenn R. Cameron

Hello fellow stargazers. Even though the weather forecasts have been gloomy, I'm surprised by the number of clear nights we have had already this summer. Hopefully they keep on coming.

I wanted to share another picture from my Philadelphia vacation last month. This is the Kopernic Monument erected in honor of Mikolaj Kopernic, by the proud Polish community in Philadelphia. You remember him as Nicholas Copernicus. We appreciate him as the first astronomer to contend that the Earth and all of the planets revolve around the Sun instead of the other way around. This heliocentric view of cosmology was a dangerous opinion in his day as the church claimed that such views were heresy. In the noteworthy category of ironic coincidence, this monument is immediately adjacent to the Cathedral Basilica of Saints Peter and Paul. I am happy to report that scientific truth has won out in the long run. These structures could not have been co-located a few hundred years ago.

The annual Astronomy Club of Akron picnic will be held on September 13th. More details will follow soon as to the location and time. All families attending should bring a covered dish or dessert. The club will provide the main course such as hot dogs and hamburgers. Please contact me with your RSVP and what kind of dish you will be bringing. This way we won't have fifteen

crock pots of baked beans. Call me at 330-737-1472 or email me at glenn.cameron@acaoh.org.

Note, this picnic is for club members only. If you have forgotten to renew your club dues, and I know it is easy to do, please bring a check with you to the picnic and you will make Lew's day.

Don't forget, 2009 is the International Year of Astronomy. Let us go out and spread the astronomical word!

Observatory Report

Ron Kalinoski

Our good luck with weather ran out this month. Only our July 11th star party had clear skies and we took advantage to view deep sky objects in Cygnus, Aquila, and Scutum. Within these constellations situated in the Milky Way, celestial objects are set in rich star fields. At low magnification and wide field, the combination provides stunning views. Members and public gathered on cloudy star party nights to hear presentations on the following topics: The Big Bang, Open Clusters, Naked Eye and Binocular Objects, and Star Atlases. Thanks to Lew Snodgrass and Mark Kochheiser for helping with these presentations.

Last month Rob Watkins stained the roof rolloff structure using his paint spraying equipment. In addition, we stained the molding on the observatory building. Our brick pad project is entering its final stage. Fred Huffman and Jeff Kreidler have been laying brick to complete the project. Currently we are about onethird complete with the brick pad. Thanks gentlemen, the club appreciates your help.

Renewals

If you have not renewed your membership, please do so ASAP! A renewal form is on the back page.

ACA Annual PICNIC Reminder

Who

Astronomy Club of Akron members and families.

When:

Sunday September 13, 2009 From 2:00pm to 6:00pm (or later).

Where:

Adell Durbin park, Campbell Lodge, Stow, Ohio. Entrance to the park is from Darrow Rd (RT-91), just south of the Kent Rd (RT-59) / Darrow Rd (RT-91) intersection.

What to bring:

A dish to share, disposable plates and plastic ware for yourself and members of your party.

What's the Club going to provide?

The Club will provide hamburgers, hot dogs, buns, condiments and soft drinks.

What's the Lodge like?

Campbell Lodge is a completely enclosed shelter, so rain won't bother us at all.

It has a refrigerator, microwave, LOTS of tables and chairs. If the weather is good (which it will be, of course), there are many picnic table in the shade of huge trees. All in all, a very nice place, indeed! There are trails through the woods so there will be lots to do - we'll have lots of fun!

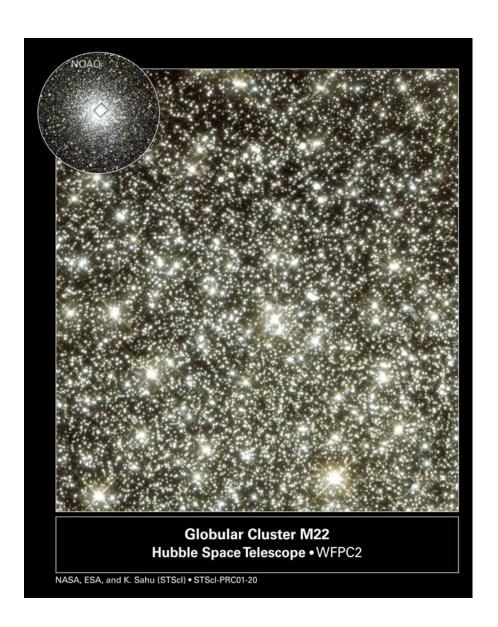

Do you have anything astronomical to sell or trade?

Bring it! We'll set up a "Swap-n-Shop" table in the lodge.

Rosaelena Villasenor. ACA Assistant Secretary/Treasurer Editor's Note. I have received a wonderful article on astronomy outreach from Paul Sell, an Akron native, who is pursuing an astronomy PhD at the University of Wisconsin. I can claim some small part in Paul's education as I sold him my Coulter 10.1" Dobsonian almost 9 years ago! I had planned to print that article in this edition, however the formatting has been extremely difficult to work out and this issue is already 2 weeks late. Look forward to that article appearing next month in this space. In the meantime, enjoy these Hubble shots of some fall targets!
