

BALDWIN WALLACE UNIVERSITY
BURRELL OBSERVATORY OPEN HOUSE
FRIDAY APRIL 8, 2016 AT 7:30 PM

MINING ASTEROIDS WITH ROBOT SWARM TECHNOLOGY
BY
GILBERT MONTAGUE

The Burrell Observatory is proud to host an open house program on Friday April 8, 2016 at 7:30 PM. Gilbert Montague, BW Senior and Physics Major, will present a lecture on NASA's plans to use robots to mine asteroids. The lecture will be held in the "Center for Innovation and Growth" (CIG).

After the lecture the Burrell Observatory will be open for viewing, weather permitting.

This is a free lecture and no reservations are required. The CIG is located the East side of Front Street, North of Bagley Road at 340 Front Street. Parking is available next to and behind CIG and adjacent to the Observatory off of Fifth Avenue West. For questions, contact the Observatory Director at gkader@bw.edu or the Department of Physics and Astronomy at 440-826-2312.
